Part 4:

Importing ERLs from Existing Intrado ERS Account to OpEasy

OpEasy with the Intrado ERS

OPEASY INTEGRATION WITH INTRADO ERS

Why convert from the Intrado ERS portal to OpEasy

Automation of provisioning rules and account selection to address wired, nomadic, and mobile endpoints

ERS ACCOUNT INFORMATION

An Intrado ERS account is equivalent to a Clearspan enterprise

- There is not an Intrado ERS equivalent account structure to a Clearspan group or department
- An Intrado ERS subscriber is a Clearspan device
- Again, the Intrado ERS is the master reference for ERL data and Clearspan is the master reference for the subscriber/device data
- The Intrado ERS allows the same ERL Name to be used for multiple dispatchable locations, OpEasy does not.
