Clearspan PING! Desktop Application Release Notes

Clearspan®

Clearspan has now released PING version 2.128.4

Clearspan PING version 2.128.4 will immediately be available via the "Check for Updates" option in PING Desktop's setting field.

Enhancements:

·   Improved call setup on 1:1 video sessions.
·   Included additional statistics gathered when the "Report a Bug" feature is utilized.
·   Enhanced PCR experience for Linux users.

Bug Fix:

·   Resolved issue where some users were not presented with Windows toast notifications on incoming calls.
·   Isolated and corrected issue where some users video would intermittently freeze for <1.5 seconds.
·   Remedied the PING mobile application incorrectly asserting a voicemail had not been when it had.
·   Removed erroneous error message when not using a headset.

As always Clearspan appreciates your business.
Support is always available 24/7 at +1 (800) 729-1872
