

Is POTS Replacement Required?

Discover why updating your
communication systems might be the
smartest move for your business!

Current Reality

- POTS networks are phasing out.
- Maintenance costs are rising.
- Risk of compliance issues is growing

What are the options?

- **Option 1:** Do nothing, but what happens when your analog alarm or fax fails?
- **Option 2:** Modernize, replace outdated systems to avoid disruptions

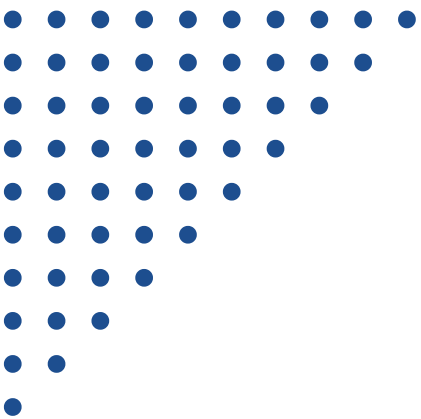

Smart Solution

- Keep your current analog devices.
- Connect them to modern networks.
- Say goodbye to expensive POTS lines while staying functional and compliant!
