The POTS Shutdown Is Closer Than You Think

An Urgent Wake-Up Call for IT and Business Leaders

→

THE PROBLEM

20M POTS Lines Are Being Decommissioned.

Yet too many businesses are still relying on outdated copper infrastructure to power:

🚨 Emergency systems
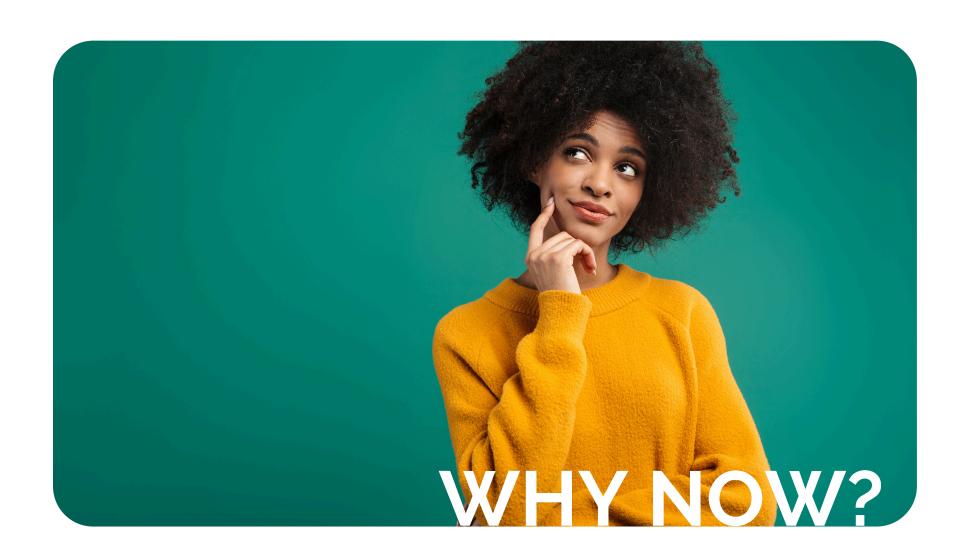

🛒 Point-of-sale terminals

🚪 Alarm and door entry systems

🏥 Medical monitoring devices

THE OPPORTUNITY

Next-Gen Cloud Communications = Immediate ROI

- ✅ Reduced downtime
- ✅ Predictable monthly costs
- ✅ Better disaster recovery
- ✅ Scalable and future-proof

It's not just a tech upgrade.
It's a strategic advantage.

WHY NOW?

The Countdown Has Begun

📈 POTS prices ↑ 27% (2005–2020)
📉 Cellular costs ↓ 50% (same period)
📅 AT&T ends copper lines by 2029
📵 FCC no longer mandates POTS availability

WHAT'S AT STAKE?

Failing to replace POTS puts your business at risk of:

- ✗ Security breaches
- ✗ Compliance violations
- ✗ Service disruptions
- ✗ Higher costs

You can't build a modern business on outdated infrastructure.

THE STRATEGIC PLAY

81% of IT decision-makers are replacing POTS by 2026.

Best-in-class orgs are:
- 🔍 Auditing all legacy lines
- 🔁 Migrating specialty systems
- 🌐 Centralizing with cloud solutions#

*Modernization must be holistic,
not ad-hoc*

THE EDGE

Why Clearspan PRS?

✓ Enterprise-grade POTS replacement
✓ Full compliance, uptime & support
✓ Seamless integration with your cloud stack
✓ Built for mission-critical systems

Replace outdated.
Elevate performance.
